PUBLIC SCHOOL DARBHANGA
SESSION (2020-21)
CLASS-IX
COMPUTER SCIENCE
COMPUTER SYSYTEM

A.   Multiple Choice Questions

1.   Which of the following is not a characteristic of a computer

   a.   Reduces paper work   b.   Less Storage capacity

   c.   Accuracy   d.   Speed

2.   The final output available to a user on the monitor is known as ……….

   a. Hardcopy   b. Software   c. Softcopy   d. Bytes

3.   Which of the following is not a part of a CPU ?

   a. MU   b. ALU   c. VDU   d. CU

4.   The component which is responsible for the control of all mathematical calculations and logical operations of a computer is called ……………

   a. ALU   b. CU   c. MU   d. ROM

5.   The process of converting unorganized data into meaningful information according to users instructions is called ……………

   a. Input   b. Storage   c. Output   d. Processing

B.   Fill in the blanks

1.   Read only memory is a part of ………………….. memory.

2.   …………………………..is a component of CPU that controls the transfer of data and instructions among other units of computer

3.   Computer have ……………………………… IQ.

4.   A microprocessor is a ………………………………..where a large number of circuit elements are integrated.

5.   The speed of a CPU is determined by the number of ……………………………………..executed by it per second.

6.   The speed of external memory is much ………………………..than internal memory.

7.   The three components of a CPU are ………………., ……………………. and ………………..

8.   Primary memory is of two types ……………………… and ………………………

ANSWERS

A.   Multiple Choice Questions

1 – b

2- c

3- c

4- a

5- d

B.   Fill in the blanks

1. internal

2. CU

3. Zero

4. Chip

5. Instructions

6. Slower

7. MU, CU, ALU

8. RAM & ROM
